

## Covered Note Pad

### A fun and quick gift!

### Supplies Needed

- 2 pieces of Solid Card Stock: 8" x 10-1/4" (this is the note pad cover); and 5" x 2" (this piece covers the advertising at the top of the note pad itself).
- Coordinating Designer Series Paper and embellishments (to decorate the front of the cover).

### Instructions

- Score the note pad cover 5" in from each short edge.
- Score the 2" x 5" piece of card stock at 3/4" and 1" in from each long edge.
- Fold the 2" x 5" piece of card stock over the top of the note pad as shown. Trim as needed and adhere.
- Fit the note pad cover around the note pad to ensure that you're using the side with the best fit as the front of the note pad cover.

- Using the Stampin' Up! Anywhere Glue Stick, apply glue to the inside back cover. Adhere cover to the note pad, adjusting the fit as needed. Glue Stick will stay flexible long enough for you to do this better than other adhesives will.

Embellish the front of the cover. For these two note pad covers, I used 2010-2011 Designer Series Papers, **Newsprint** and **Patterns (Rich Razzleberry)**. I used the letters from the stamp set, **Lovely Letters**, some border punches and coordinating ribbons.

For the note pad on the left, I made nice clean cuts and lined things up to be neat and straight. I used the cleanly cut Scallop Edge Punch to accent the **Newsprint** Designer Paper, stamped the letters on **Very Vanilla** card stock. Then I cut the letters to a 1-1/8" square and matted them with **Rich Razzleberry** punched with the 1-1/4" Square Punch.

I gave the note pad on the right a bit more of a "Vintage" look by distressing the edges of the designer papers and applying some **Rich Razzleberry** ink with a sponge. I stamped the letters on a sheet from the **Newsprint Designer Paper** set and adhered them angled to each other a bit. I used the **Eyelet Border Punch** for a bit more texture, and ruffled some **Very Vanilla Taffeta Ribbon** and added a bit of sponged **Rich Razzleberry** ink to it.

**HAVE FUN!!!**
